It is our profound honor and privilege to extend a warm invitation to you for the **9th Annual Conference of the Clinical Cardio Diabetic Society of India (CCDSI)**, scheduled to take place on 23rd and 24th August 2025 in the Education City Kota.

This prestigious conference aims to serve as an exceptional platform for clinicians, researchers, and healthcare professionals to converge, exchange groundbreaking ideas, and engage in thought-provoking discussions on the ever-evolving landscape of cardio metabolic disorders. As the prevalence of diabetes and cardiovascular diseases continues to escalate globally, particularly in India, it becomes imperative to develop evidence-based, patient-centric, and region-specific management strategies. CCDSICON 2025 aspires to address these critical challenges by facilitating scholarly deliberations and fostering collaboration among the finest minds in the field.

The meticulously curated scientific program will encompass a diverse array of orations, keynote addresses, plenary sessions, symposia, case-based discussions, and high-impact debates, featuring eminent experts from across the country. Through these engaging sessions, we aim to translate scientific knowledge into pragmatic clinical applications that can significantly enhance healthcare delivery.
